This seminar will inform employers & supervisors of the dangers of workplace substance abuse; review the requirements of the drug-free workplace law, explore onsite drug testing options.

Eighty-five percent of HR professionals believe that offering educational programs to build understanding of addiction in the workplace is an effective means of dealing with the problem of workplace substance abuse.

### DID YOU KNOW?

***ONE BAD HIRING DECISION CAN COST YOUR COMPANY \$60,000!***

The most significant problems in today's workplace are due to employee substance abuse and addiction. Absenteeism, reduced productivity and a lack of trustworthiness have a negative impact on a company's external reputation. One drug-using employee can destroy a company from within.

### IS YOUR COMPANY USING THE MOST ACCURATE NEW ONSITE ORAL FLUIDS TESTING PRODUCTS?

On-site oral fluid-based testing can be done virtually anywhere, at anytime, and by any designated employee representative in the workplace. This critical factor enables your company to implement this type of testing within Georgia's Drug Free Workplace law.
